ARCHITECTURE, edited in the interest of the profession, is published the fifteenth of every month by CHARLES SCRIBNER'S SONS (Charles Scribner, President), Fifth Avenue at 48th Street, New York.

PRICE, mailed flat to any address in the United States, Mexico, or Cuba, \$5.00 per annum in advance, \$1.00 a number; to Canada, \$6.00 per annum; to any foreign address, \$7.00 per annum.

ADVERTISING RATES upon request. The writing and displaying of Advertisements is an art in itself, and the publishers will be pleased to give the Advertiser the benefit of an Expert's experience in this line at no additional expense.

Copyright, 1922, by CHARLES SCRIBNER'S SONS. All rights reserved.

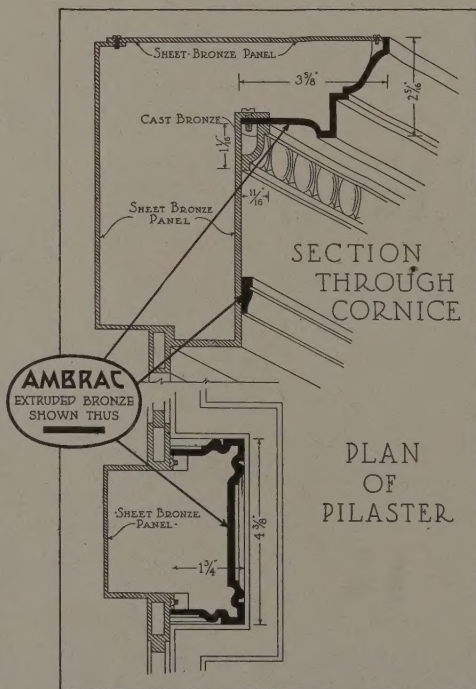

Entered as Second-Class Matter, March 30, 1900, at the Post-Office at New York, N. Y., under the Act of March 2, 1879.

# AMBRAC STRUCTURAL SHAPES

AMBRAC EXTRUDED BRONZE COUNTERSCREEN OF THE BANK OF COMMERCE, SPRINGFIELD, MO.  
Opel & Torbett, Architects. Fabricated by the Michaels Art Bronze Company, Cincinnati, Ohio, from AMBRAC extruded bronze shapes and mouldings manufactured by The American Brass Company

## Ambrac Extruded Bronze Shapes Clean and Sharp

THE extrusion process, long employed by The American Brass Company for the making of AMBRAC architectural bronze shapes, has made it comparatively easy to carry out the architect's specifications for bank screens, grilles, wickets, counters and cornices. Because AMBRAC bronze is forced through a die made to conform with the original sectional drawing exactly, the resultant shape has the sharp lines and well defined shadows that the architect demands.

AMBRAC architectural bronze shapes are always extruded according to architectural drawings. Hence, when estimates are requested, drawings of the shapes desired should be submitted.

The Extrusion Departments of The American Brass Company at Kenosha, Wis., and Ansonia, Conn., will gladly supply any technical information desired.
